

Extras

Here are some items that we do not supply as standard with our vehicles, but you are able to hire individually for your adventure:

PLEASE NOTE: The below equipment is subject to availability.

- Child seats
- Jerry Can for extra fuel
- Two way radios
- Shower Tent and Toilet Tent
- Inverter
- Ground tent/2nd tent
- 5th person camping equipment
- Starlink

We also offer:

AMREF Flying Doctors

AMREF Flying Doctors is Africa's leading provider of fixed-wing air ambulance services. Operating from Wilson Airport in Nairobi, they have more than 60 years of experience in aeromedical transport and are internationally accredited by the European Aeromedical Institute (EURAMI). They mainly evacuate from East Africa but can arrange evacuation and repatriation to almost anywhere in the world.

We strongly recommend that everyone driving our vehicles takes out AMREF cover. It's very reasonably priced and gives real peace of mind in remote areas.

Airport Transfers

Whether you have an early or late flight, or need dropping at your accommodation before coming to pick up your hire car, we cater for all needs. We also offer handovers at the airport – for quick and easy travel.

Drop off and collection

Want to do a one way trip or need a vehicle dropping off to you in any location in Kenya? We can make that happen.

Smartphone with Mpesa

M-Pesa is a mobile money service used throughout East Africa, especially in Kenya and Tanzania. It lets you pay for goods and services and send, receive and withdraw money from your phone, and almost everywhere accepts it, from market stalls to lodges.

Our smartphones come with M-Pesa set up, a local SIM, and Google Maps. We can pre-load airtime of your chosen value, and you can use the phone as a hotspot wherever there's mobile signal.

Driver and Guide services

Prefer not to drive, or want local knowledge on the road? We can provide an experienced driver and guide for your trip. Get in touch and we'll tailor it to your plans.
